International application No.

PCT/JP2005/000005

Box No. 11	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
1. Claims	al search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons: s Nos.: se they relate to subject matter not required to be searched by this Authority, namely:
becaus	s Nos.: se they relate to parts of the international application that do not comply with the prescribed requirements to such an that no meaningful international search can be carried out, specifically:
	s Nos.: se they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
The spe an exter a discharge whereas external in an including (continually (continually (and any ad 3. As only ad 3. As only ad any ad 3. As only ad any ad 3.	cial Searching Authority found multiple inventions in this international application, as follows: cial technical feature of claims 1-6, 8-11 is disposing a bulb and nal electrode at a specified gap by providing insulating holders in arge lamp having an internal electrode and the external electrode, the special technical feature of claim 7 is disposing a bulb and an electrode at a specified gap by embedding the external electrode sulating holder almost the same in length as the bulb in a discharge ing an internal electrode and the external electrode, thus providing different features.  The different features are timely paid by the applicant, this international search report covers all searchable in searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of ditional fee.  The specifically claims have a possible applicant, this international search report covers have claims for which fees were paid, specifically claims Nos.:
4. No rec restric	quired additional search fees were timely paid by the applicant. Consequently, this international search report is ted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Pro	The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.
